Step 1

Take the piece of card marked "Pixie Sparkle Sheet". Tape down the sides and sprinkle over the Pixie Sparkle powder, spritz with water to activate the powder. Once you spritz the card it will begin to curl or bow so hold down using a pokey tool and you can use a heat tool to speed up the drying process. If needed, add more Pixie Sparkles to ensure good coverage especially over the middle section. Set aside to dry. Use the sheet included in your pack to continue so that you know it's completely dry. Keep the sheet you made for later projects.

Step 2

Using some of the residue left from the Pixie Sparkles, take a wet paintbrush and use the powder to color your White Dotty Balloon from your pack. Dry with heat tool and set aside.

Step 3

Add mounting foam to the back of the White frame from the pack.

Step 4

Add glue to the back of the Stars background and attach it to the top of the sheet you covered with Beyond Blue Pixie Sparkles.

Step 5

Add the white frame on top of the stars and Pixie Sparkles background.

Step 6

Glue the solid Black balloon behind the dotted balloon. Glue the string to the balloon. The ends will need to be trimmed or tucked around the balloon. Add some mounting foam to the back of the balloon.

Step 7

Glue the 2 Hip Hip Hooray sentiments together for dimension, then glue them onto the Star background, positioning it to the left of the card.

Step 8

Add the balloon to the right of the card with mounting foam, angle it from the frame corner towards the sentiment for placement.

Step 9

Glue or tape the card front onto the folded card blank in your kit to complete.
