## Step by Step Instructions

### Step 1

Take a piece of white card and die cut using the outer die from Paper Panda Wishing Star.

### Step 2

Spray a small amount of Poppy Parade, Amber Lights and Blackberry Airless misters on to a lid or paint palette. (Using these misters as ink). Take a wide brush and cover the bottom of your card in Amber lights.

### Step 3

Next dip your brush into the Poppy Parade making sure you blend into the Amber Lights, and then the Blackberry Bliss, again making this blend into to the Poppy Parade.

### Step 4

Once the sunset background has slightly dried spray a few sprays of Victorian Gold and Copper Blaze over the background. Put to one side to dry.

### Step 5

Take a small off cut of white card and die cut just the moon part of the die. Cut off all the bits. Using a paintbrush (with a little water), colour using Enchanted Gold Metallic Gilding Polish. Put to one side to dry.

### Step 6

Take an A6 Card blank and lay the outer cutting edge of the die over the top. Make sure the left-hand side of the die is over the fold of the card and pass through your die cutting machine. This will create an arch shaped Card.

### Step 7

Take a sheet of Black Foundation card and die cut the main image out. Glue on to your sunset background.

### Step 8

Glue your background on to your arched card blank. Next glue on your moon. Finish your card off by adding a few Golden Stars Glitter Jewels to the background
